Overview of 2016 CDR Requirements

Speaker: Susan Sharkey

- The 2016 submission period is June 1 to September 30, 2016
- Manufacturers, including importers of TSCA Inventory-listed chemical substances with a production volume of 2,500 lbs or 25,000 lbs or greater at a site, unless otherwise exempted
- Important to Know:
 - Reporting is site-specific
 - Reporting standard is “known to or reasonably ascertainable by” for all data
 - CBI-upfront substantiation required for:
 - Site and chemical identity claims
 - Processing and use information claims

Overview of 2016 CDR – Reported Data Elements

Manufacturing-Related Data

- Chemical Identity
 - CASRN and Chemical Name
 - Accession Number and Generic Chemical Name for CBI substances
- Production Volume (PV)

2015 Data	2014 Data	2013 Data	2012 Data
Domestically Manufactured PV	Total PV only	Total PV only	Total PV only
Imported PV			
Indicate whether chemical physically at reporting site			
Volume used at reporting site			
Volume directly exported from reporting site			

- Number of workers that are reasonably likely to be exposed (in ranges)
- Maximum concentration
- Indication of whether a manufactured chemical substance is being recycled, remanufactured, reprocessed or reused
- Physical form and percent production volume in the form

Overview of 2016 CDR – Reported Data Elements

Processing- and Use-Related Data

- Required for production volumes of 25,000 lbs or more, at a site, unless subject to a reduced threshold of 2,500 lb more at a site, unless otherwise exempted
- Industrial Processing and Use

Report up to 10 unique combinations:			For each unique combination, report:		
Industrial function category	Industrial sector	Functional use	Percent production volume	Number of reasonably likely to be exposed workers	Number of sites

- Commercial and Consumer Use

Report up to 10:	For each unique category, report:				
Product categories	Commercial or consumer?	Is use in a product intended for children?	Percent production volume	Maximum concentration	Number of reasonably likely to be exposed commercial workers

How To Report

Register with EPA's **Central Data Exchange** (CDX)

- Register for organizations and sites
- Update current registration as needed
- Update current site information

Access **TSCA** **Chemical Data** **Reporting**

- To complete Form U
- One Form U per site
- Includes step by step submission instructions

Welcome

Welcome to the Environmental Protection Agency (EPA) Central Data Exchange (CDX) - the Agency's electronic reporting site. The Central Data Exchange concept has been defined as a central point which supplements EPA reporting systems by performing new and existing functions for receiving legally acceptable data in various formats, including consolidated and integrated data.

CHEMICAL INFORMATION SUBMISSION SYSTEM

TSCA Chemical Data Reporting (CDR)

OK

The Chemical Data Reporting (CDR) rule requires manufacturers (including importers) to report to EPA information concerning the manufacturing, processing, and use of certain chemical substances listed on the CSPP Chemical Safety and Pesticide Programs. Click OK to complete the CDR form, Form U, using the e-CDRweb software.

The software includes embedded help files and a downloadable user manual to guide you through the CDR submission process. Submit information for all reportable chemical substances at your site in one Form U. Note that a separate CDR submission is required for each reporting site. If you are not reporting on CDR, please select a different application in the drop-down menu.

Paperwork Reduction Act Notice

The annual public burden for this collection of information, which is approved under OMB Control Number 2070-0162, is estimated to be approximately 137 hours per response for a full report and 54 hours per response for a partial report. A full report includes manufacturing, processing, and use information. A partial report includes manufacturing information and does not include processing and use information. According to the Paperwork Reduction Act, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information; processing and maintaining information; and disclosing or providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB number. The OMB control number for this collection appears above. In addition, the OMB control numbers for EPA's regulations, after initial display in the final rule, are listed in 40 CFR part 9.

Welcome to the e-CDRweb application.

Forms

Create, modify, or delete a form by clicking the **Forms** tab.

User Management

Manage the access rights of Supports per facility. For every Support in each facility, the Authorized Official may give him/her the ability to edit (but not create or delete) the form.

Resources

A helpful guide that describes the CDR system and provides useful links for further usability instruction.

Primary Authorized Official

A Primary Authorized Official has the ability to create, amend, and unlock forms (parts 1-3). The Authorized Official is the only person who can submit completed forms electronically. Finally, the Authorized Official has the ability to assign Supports to individual sites.

CDR FORM U

If responding to an order for the first time in CDR, click the **Site** link located under the site column for a form that is **Not Started** in the below table.

To edit an **In Progress** form, click the site link in the **Site** column in the table below.

To access and edit a form previously **Submitted** through CDX, unlock the form by clicking the lock icon and enter your passphrase when prompted. All additional changes made to the form will be submitted as an amendment.

To download a Copy of Record for a submitted order, click the **green arrow** icon and enter your passphrase when prompted.

CREATE PASSPHRASE

Please create a passphrase that has minimum of 8 characters and maximum of 20 characters in length. To better protect your account, your passphrase should contain a combination of letters and numbers. Your passphrase may include spaces, but should not contain special characters (for example, +, and *).

New Passphrase:

Confirm New Passphrase:

A passphrase can only be created by an authorized official for a reporting site. Your passphrase will be used as an encryption key to protect the contents of your data. As an Authorized Official, you are responsible for remembering your passphrase and distributing it to only authorized supports for your site.

Note: If you lose or forget your passphrase, you will not be able to access your 2016 CDR Form U to print, submit, or make changes. You will need to complete a new 2016 CDR Form U and create a new passphrase for the reportable chemical substance(s) at your site. For security reasons, the system administrator will not have access to your passphrase and will not be able to retrieve it or reset it to a new one.

CBI SUBSTANTIATION QUESTIONS

Site Identification (2.B.2)

1. Has site information been linked with a chemical identity in any other Federal, state, or local reporting scheme? For example, is the chemical identity linked to a site in a filing under the EPCRA section 311, namely, through a Material Safety Data Sheet (MSDS)? If so, identify such schemes. Was the linkage claimed as confidential in any of these instances?

2. What harmful effect, if any, to your competitive position do you think would result from disclosure of the identity of the site and the chemical substance? How could a competitor use such information? Would the effects of disclosure be substantial? What is the causal relationship between the disclosure and the harmful effects?
